

Special Edition

Leica Rugby CLA-ctive & CLX550

Leica Rugby CLA-ctive & CLX550

The right choice for every job site

Self-levelling, semi-automatic Grade Laser

The Special Edition Leica Rugby CLA-ctive & CLX550 software module provides different possibilities to align, position, level and stake-out easily on any job site.

Versatile, precise, quick and robust – the CLA-ctive is an absolute Allrounder and a reliable partner for construction.

The Leica Rugby CLA-ctive & CLX550 can be used for horizontal and vertical applications with its integrated laydown functionality.

Furthermore, the grade can be entered by pressing the arrow keys at the display or simple with the help of the CLC Combo-receiver-remote.

The versatility of this special edition increases productivity and efficiency on every construction site.
